*RI/FS - Work Plan*

12-3-86

Mr. Valdas V. Adamkus  
Regional Administrator  
U.S. Environmental Protection Agency  
Region V, Mail Code 5AR14  
230 South Dearborn Street, 13th Floor  
Chicago, Illinois 60604

Dear Mr. Adamkus:

**SITE-WIDE REMEDIAL INVESTIGATION AND FEASIBILITY STUDY (RI/FS) WORK PLAN - FEED MATERIALS PRODUCTION CENTER (FMPC)**

Reference is made to your letter to me, dated November 19, 1986, similar subject as above.

The referenced letter provides a basis for a working relationship which we strongly support. Although the Work Plan developed to meet the 90-day deliverable under the Federal Facility Compliance Agreement (FFCA) was available, its submittal would have been inappropriate due to the technical deficiencies alluded to in my letter of October 15, 1986. We have met with our contractors and are now on a critical path to develop a Work Plan which is consistent with the RI/FS guidance documents, the Scope of Work in the FFCA and other U.S. Environmental Protection Agency Region V guidance documents as appropriate.

Our intent and purpose of this effort has been discussed with your staff. The RI/FS Work Plan will be provided to your agency for review and comment by mid-December 1986.

We regret not informing you sooner of our delay in submission of this deliverable and will make every effort to keep you informed on the status of any future deliverables and any anticipated delays.

If you have any questions, please contact me at (FTS) 774-6319.

Sincerely,

*James A. Reafsnyder*
